Objective

As a motivated Front-End Developer with professional experience at Novaders LLP and prior internship exposure in PHP full-stack development, I am skilled in creating responsive and user-friendly web applications using HTML, CSS, JavaScript, and Angular. With additional knowledge in Python, DSA, DBMS, and MySQL, I bring both versatility and a strong technical foundation. I am passionate about delivering optimized, scalable, and seamless digital solutions while collaborating effectively with cross-functional teams. Therefore, I am seeking an opportunity where I can leverage my skills, expand my expertise, and contribute meaningfully to the success of the organization.

Experience

- Novaders LLP** 1-8-2024 - 2-6-2025
Front end developer | UI developer
-Developed responsive and interactive web pages using HTML, CSS, and JavaScript.
-Created dynamic and modular front-end components using Angular.
-Collaborated with backend developers and UI/UX designers to deliver seamless user experiences.
-Ensured performance optimization and cross-browser compatibility of web applications.
-Integrated RESTful APIs to fetch, display, and update dynamic data in applications.
-Used Git and GitHub repositories for version control, code collaboration, and project management.
-Debugged and resolved UI/functional issues, ensuring smooth application performance.
-Performed bug fixes and enhancements based on testing feedback and user requirements.
- Code lab System.** 1-2-2024 - 1-3-2024
PHP[FULL STACK] intern
- Built efficient, testable, and reusable PHP modules
- Integrated front-end components into backend infrastructure

Education

- Udupi college of professional studies, Manipal** Aug 2021- July 2024
BCA (bachelor's of computer applications)
7.6 CGPA
- Mahatma Gandhi Memorial PU College, Kunjibettu** June 2019 - June 2021
H.S.C
76%
- SMS English Medium High School, Brahmavara** June 2016 - April 2019
S.S.L.C
83.63%

Skills

- Html, CSS
- Angular, Typescript, JavaScript
- Java, Python, PHP
- Git, Debugging
- MySQL, DBMS , MS office ,MS Excel
- C, C++,C#

Projects

- LOAN PREDICTION**
-Involves analyzing applicant background information to determine loan approval decisions.
-Considers key parameters such as credit score, loan amount, lifestyle, career, and assets.
